SUCCULENT PLANTS

AND AQUATICS

SOLEDAD ROCK & WATER GARDENS

PACIFIC BEACH, SAN DIEGO, CALIFORNIA

WHOLESALE PRICE LIST—July, 1933

Satisfactory quality and safe arrival guaranteed on parcel post and express shipments in the U. S. A.

Price f. o. b. Pacific Beach. Cash with order.
Minimum order at these prices—\$3.00.

If you do not find the variety you want, listed, write us—we probably have it.

Succulent plants will be found useful as pot plants, in porch boxes and hanging baskets, as bedding and border plants, in the summer rock garden as well as in dish gardens, and in general landscape work in California and in the South. If not familiar with these plants let us make up an assortment suitable to your needs.

While succulent plants will survive under almost any conditions of soil and moisture, we find that most of them do well under the same conditions of temperature and moisture as used for the geranium. For potting we use a soil mixture composed of one-fifth sand, one-fifth leaf mold or German peat, three-fifths good garden loam, with the addition of some lime.

ALOES

Our specialty—are fine pot plants for the home and are becoming more popular as their beauty and durability are being recognized.

	Unit Prices	
	Rooted	Unrooted
		Summer
arborescens (large, branching; fls. red, early winter)05
